

Be advised that I and my family enjoy and continue to want XM satellite Radio. I am sick and tired and do not want the so-called NAB (National Association of Broadcasters) controlling the air waves and dictating what I am to listen to on the radio.

The National Association of Broadcasters is a radical business oriented group that is forcing there propaganda, there radical concepts, there opinions, there beliefs, there theories, there schemes, etc. down the mass medias throats. The National Association of Broadcasters and the organizations that they represent want to turn the Amercian People if not the world in to a bunch of mechanical robots.

The National Association of Broadcasters do not want the average working American to think, to draw conclusions on their own and therefore, make logical decisions. They want to do this for us.

It is the Government's responsibility to protect the citizens and taxpayers of this country.

Thank you,

Raymond A. Meister, P.E.
